TESTIMONIALS :

"Ronnie came on my radar through Maria Menounos ten years ago when he interviewed her at Fuse. She said he was an amazing talent and years later he became an integral part of working behind the scenes for our AfterBuzz TV network launch. Rarely do you see someone with the ability to host and produce like Ronnie can. No one in the business has more positive energy to bring to my project than he does. He will always be part of our AfterBuzz family as a result."

"Over the years since I first met Ronald (Ronnie) Ruelas Jr. I have witnessed the incredible growth and evolution of a man and a professional I am honored to call a friend. When it comes to media and promotion, few work harder, put in as much love into their craft, and as much devotion into building relationships as Ronnie Jr."
